2012 SCHOOL HELMET PROGRAM A SERVICE TO THE PARENTS

Helpful Tips on Running a Successful Helmet Program

- 1.) Decide on a date when you want your helmets to arrive. Count back approximately 5 weeks, this is when the PARENT ORDER FORM (enclosed) and *NEWSLETTER should go home with the students.
- 2.) Copy the PARENT ORDER FORM for everyone participating in the sale.
- 3.) Create a *NEWSLETTER see (Sample Parent Newsletter enclosed) to inform parents of the sale and cut off date.
- 4.) Allow 1 or 2 weeks for the parents to return their orders with payment. Please note that you may have some late orders, therefore, it is a good idea to wait a few days after your due date before placing your order with Helmets R Us.
- 5.) As the orders come in, use the SCHOOL TALLY SHEET (enclosed) to record total items to be ordered. The TALLY SHEET is what you will fax to us to place your order OR you can place your ORDER ONLINE at www.helmetsrus.net. **Important:** PLEASE KEEP PARENT ORDER FORMS so when the items arrive you can match them up.
- 6.) When your order arrives (allow 2-10 business days for delivery) please verify items ordered with your TALLY SHEET. Report any damaged or missing items to Helmets R Us within 20 days of shipment for a replacement.
- 7.) Attach PARENT ORDER FORMS to the items ordered, this makes it easier to hand out to the correct individuals.

Protect Your Head. Wear a Helmet.

What you need to know..

Does my child really need one?

The simple answer is yes. Laws now require helmets in many areas. Every year children are treated in hospital emergency rooms for head trauma and injuries suffered in bike falls and crashes.

- **A bicycle helmet reduces the risk of serious head and brain injury by 85-88%.**

Your child can suffer permanent personality changes and learning disabilities from a brain injury.

- **It is estimated that 75 percent of bicycle-related fatalities among children could be prevented with a bicycle helmet.**

No one can say for certain that any bicycle accident is totally avoidable or that any injury can be prevented. One thing is certain; wearing a helmet can reduce the risk of injury.

How do I pick one?

Choose a helmet that fits. That's really the most important part. A helmet that also looks great and feels good helps ensure that your child will wear it. Always make sure to refer to your manual for adjustment of your helmet for a perfect fit.
